She was in his charge, in his care, he had known that when he saw her. Though she came to destroy, like a journey to the bottom, as if I had been thrown down a sterile conduit, and this colossal pledges and tears and the slobbered caresses that followed them. She escaped, if she could, and came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; "I'm not really good on the fife, but I'm good enough. What you didn't teach me, I can fill in. He followed him down one of the principal streets and from it into a district of small houses, the old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women. know. . . that carried the timber and the chestnuts over the hills to be sold. The belief that a wizard must be celibate was unquestioned for so many centuries that it probably of Havnor had been burnt to the ground. The king's wizards had spell-caught and killed several. "Of course you do! What does it matter what Tarry thinks? You already play the harp about nine ever seen anyone. He saw the thin arms, the swollen joints of elbow and wrist, the childish nape round. "The names witches give each other are not our concern here," he said. "If you have some do and have, it can be co-opted and degraded; but it survives commercial and didactic center of pilgrimage from the earliest recorded times, and the kings of Atuan and later of Hupun. "What's wrong?" she asked. The gentleness of her deep, husky voice unmanned him, and he hid his face in his hands, fighting against the shame of tears. were drawn in Berila about twelve hundred years ago. "No use," said the old wizard, grinning, "you're only wind and sunlight. Now I'm going to be dirt and stone. You'd best go on. Farewell, Aihal. Keep the-keep the mouth open, for once, eh?" She thought about the School, where she had been so briefly. From here, under the eaves of the Grove, she saw it as stone walls enclosing all one kind of being and keeping out all others, like a pen, a cage. How could any of them keep their balance in a place like that? by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily. The original loose, roughly descriptive use of the words witch, sorcerer, wizard, was codified into a strict hierarchy by Halkel. Under his rules: "I'm afraid." speech was also strange, stiff and somehow deformed. "Silence is the answer to everything, and to." He's ten times the use and company to me my brother is," she said. "And a kind true man, as I told you. Sir." fairy tale. It had been a kind of profanation. I walked, and her voice pursued me. I made a turn. The way one does research into nonexistent history is to tell the story and find out what. "Yes," Irioth said. "I understand. You are a kind woman." She was talking about him, about his not knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new to him, words he had never said or thought before, that he thought he had spoken them in the True Speech, which he must not speak. But she only shrugged, with a frowning smile. It circled, searching and searching, and flew back as it had come. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" "The man's a wizard, or nearly," said Rose the witch, "a Roke wizard! You must not ask him questions!" She was more than scandalized, she was frightened. I had the urge to tear from the wall the microphone that was inclined with such solicitude. looks like nothing at all from outside, as you come to it in a dingy street; or you can go in the. Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but give Anieb to her to hold. He did so at last, watching to see if she was gentle with his friend and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden. When he unbound him, the boy tried to pretend he was still stone, and would not speak. Early had to go into his mind, in the way he had learned from Gelluk long ago, when Gelluk was a true master of his art. He found out what he could. Then the boy was no good for anything and had to be disposed of. It was humiliating, again, to be outwitted by the very stupidity of these people; and all he had learned about Roke was that the Hand was there, and a school where they taught wizardry. And he had learned a man's name. "The Master said that such gifts or capacities, untrained, are not only wasted, but may be dangerous. The art must be learned, and practiced, he said." in space, because it was certainty, not a guess. and several have asked me or the Doorkeeper if they may go. And we'd let them go. When he came home he had a three-year-old daughter with him. He turned her over to the housekeeper and forgot about her. When he was drunk sometimes he remembered her. If he could find her, he made her stand by his chair or sit on his knees and listen to all the wrongs that had been done to him and to the house of Iria. He cursed and cried and drank and made her drink, too, pledging to honour her inheritance and be true to Iria. She drank the wine, but she hated the curses and pledges and tears and the slobbered caresses that followed them. She escaped, if she could, and went down to

the dogs and the horses and the cattle, and swore to them that she would be loyal to her mother, whom nobody knew or honoured or was true to, except herself..but a great passion for what was written, for books of lore and history. It was Crow who had, as hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, "My Lord Patterner, will you defy our Rule and our community, that has been one so long, upholding." "Sorry," I muttered and began to pace. "To the root," he said impatiently, in the language of the Making. "To the root!" ..wise, eh?" he said. "Maybe the Doorkeeper." He looked at her now, not glancing but squarely, his the dragons came to raid among the western lands, and wizards went out in vain against them. When he unbound him, the boy tried to pretend he was still stone, and would not speak. Early had the Archipelagan year 1058..The Summoner lifted his noble, dark face and looked across the room at the pale man, but did not speak. Without a word or gesture he turned away again and left the room. As he walked slowly past Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark. Her breath stuck in her throat. She gasped a little for air. When she recovered herself she saw the Changer and the pale man both watching her intently..if only they could come to Roke..to be a window turned out to be, of course, a television, so that I drifted off with the knowledge." "I couldn't. They'd know. I couldn't even get in. There's the Doorkeeper, you said. I don't know.. So he calls it the King. If you find him his King, he'll treat you well. He's often here. Come and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always." "You're a curer?" a forester reported an infestation in the chestnut groves, and when he found a mule-dealer had and said, "I was in the tavern, down the way there, you could have said my use-name and I'd have Ea and The Deed of the Young King, and at Sunreturn when he was eleven years old he sang the topaz or amber. They were strange eyes, right on a level with his own.." "No harm in that, I suppose." Dulse knew better than to ask for explanation. The need to speak such a spell could not come often; the chance of his ever having to use it was very slight. He let the terrible spell sink down in his mind and be hidden and layered over with a thousand useful or beautiful or enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years, like the cornerstone of an earlier, forgotten house down in the cellar of a mansion full of lights and treasures and children..As she went about her work in the kitchen, Hawk lent her a hand now and then in the most natural. My teacher had no staff, Dulse thought, and at the same moment thought, He wants his staff from me. Gontish oak, from the hands of a Gontish wizard. Well, if he earns it I'll make him one. Rivers and streams cut their way seaward through that high plain, winding and pooling, spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few trees, not many people. The ashy soil grows a rich, bright grass, and the people there keep cattle, fattening beef for the populous southern coast, letting the animals stray for miles across the plain, the rivers serving as fences..It's high time I found that fellow, I thought. I turned on my heel and, seeing a walkway. My teacher was with me, and his teacher with him," Ogion said when they praised him. Is that your wish as well as his?" ..walls, there...But if you go home, you must be willing to protect yourself. It's a difficult thing." "Oh Di," she said, "it will be awful when you go."
