"Well, it's time we were leaving," he said to Sirocco, who was lounging with his feet up on the desk, and Colman, sprawled in a corner, both red-eyed after a long and exhausting day. I'd hate to be disturbing His Honor in his sleep."..shoulders length auburn hair was tied back in a ponytail, and she was wearing tan slacks with an orange silk blouse covering firm, full breasts.

She looked up as Howard came out of the home. Her expression did not change. Their relationship was, and for all practical purposes always had been, a social symbiosis based on an adult recognition of the realities of life and its expectations, uncomplicated by any excess of the romantic illusions that the lower echelons clung to in the way that was encouraged for stability, security, and the necessity for controlled procreation. Unfortunately, the masses were needed to support and defend the structure. Machines had more-desirable qualities in that they applied themselves diligently to their tasks without making demands, but misguided idealists had an unfortunate habit of exploiting technology to eliminate the labor that kept people busy and out of mischief. Too, the idealists would teach them how to think. That had been the delusion of the twentieth century; 2021 had been the consequence..way?".precious retreat; though Sinsemilla might invade any room without warning, Leilani could at least pretend..How peculiar the world had grown if now life with Aunt Gen had become the sterling standard of..Then Colman's communicator started bleeping. On the way his pace slowed abruptly. Some time before, he had stumbled into a very personal and satisfying way of feeling that he was getting even with the system in a way that he didn't fully understand. Nobody else knew about it--not even Hanlon, but that didn't make any difference. He hadn't seen her for a while now, and he was in just the right mood.."HE'S AMAZING, ISN'T he," Shirley said in an awed voice as she leaned forward to get a better view of the table over the shoulder of her daughter, Ci, who was sitting on the floor. "It must be a genetic mutation that makes sticky fingers or something."..They crossed the machinery compartment in the direction the others had taken, passed through an instrumentation bay, and ascended two flights of steel stairs to reenter the Government Center proper behind offices that had been empty since the end of the voyage, using a bulkhead hatch that Colman and Driscoll had opened on their way down. There was no sign of the others who had gone ahead. "But I think people are exaggerating the situation. That incident was not representative of what we should expect. The Chironians act as they're treated. People who mind their own business and don't go out of their way to bother anyone have nothing to be frightened of."..Micky finished her coffee in long swallows, as though she had forgotten it wasn't spiked, and though she..GENERAL JOHANNES BORFTEIN'S simple and practical philosophy of life was that everything comes to him who goes out and looks for it, and if need be, takes it. Nobody was going to give anyone anything for nothing, and nobody kept for very long what he neglected to defend. The name of the game was Survival. He hadn't made up the roles; they had been written into Nature long before he existed.."I only live at Port Norday during the week," Kath said. "I've got a place in Franklin as well. It's not far from here at all."..Leilani shrugged. "It's the truth. I couldn't make up anything as weird as what is. "I am honored and privileged by this appointment, and I will dedicate myself for the duration of my term to serving the best interests of our people to the best of my ability," he announced, "in accordance with that promise, my first official act is to restore the full powers of Congress as previously ~suspended, and my second is to declare the state of emergency ended as of this moment," Another round of applause, this time briefer than before, greeted the statement. "Next, I have two proposals to put to the vote of the assembly," Lechat said. "But before I do so, I feel that the Supreme Military Commander of the Mission might wish to speak." He sat down, looked along the dais toward Borftein, and motioned with his hand an invitation for the general to take it from there.."You've already said it," Eve told him. Give old Sinsemilla a little time, and you'll see." Colman grinned. "Okay, chief. I will." A short silence fell while they both thought about the same thing. "How long do you think it'll be?" Colman asked at last. "A witch doctor." Kalens smiled at the frown on Celia's. her suspicions directly, however, she would risk driving Leilani to further evasion. For reasons that she. "I agree, I agree," Lechat told them. "But we only know what we know, and we can only do what we can do. Surely doing so is not going to make things any worse. Will you try it?" Before anyone could reply, Colman said, "There might be a way to make it better." Everyone looked at him. He swept his hands around quickly. "There is a way we could get the message out to everybody, all at the same time-to the public, the Military-everyone." He looked around again. The others waited. "Through the Communications Center up in the ship," he said. "Every channel and frequency of the Terran net is concentrated there, including the military network and the emergency bands. We could broadcast from there on all of them simultaneously. You couldn't make much more impact than that." He sat back and looked around again to invite reactions. Feet thump up the entry stairs, and the floorboards creak under new weight. Lamps come on in the. "But what if he launches those weapons into orbit before issuing an ultimatum?" Barefoot, she went into the kitchen, where Geneva was preparing dinner. A small electric fan, set on the bite, so quickly reducing her to these spasms, these half-mad headlong frenzies, out of control. "So? do you?" Micky asked. "Confusion," Sirocco said while jabbing at buttons and talking to screens. "People just off the shuttle coming down with stories about something big happening up in the ship-" He turned to one of the screens: "Then try and find his adjutant and get him on a line." Then back to Colman: anger, and so she drank now in the service of Leilani. Colman stood near Hanlon in front of the Third and Second platoons of D Company and a short distance behind Sirocco, well to one side of the main Army contingent. Only a few of the Company were absent for one reason or another, conspicuous among them Corporal Swyley, who was in Brigade sick bay and looking forward to a turkey dinner; the standing order for a spinach-and fish diet had mysteriously erased itself from the administration computer's records. The dietician had been certain he'd seen something of the sort in there before, but conceded that perhaps he was confusing Swyley with somebody else. Swyley had agreed that there had been something like that in the records by saying he disagreed, and the dietician had misunderstood and decided to forget about the whole thing. a gun under them. burnt umber, with a filigree of chrome-yellow. Most of the adults he knew--the ones over twenty-five or so, anyway--seemed to feel an obligation to be sympathetic toward people like him, who had never experienced life on Earth. From what he had seen he wasn't sure that he'd missed all that much. Life on the Mayflower II was comfortable and secure with plenty of interesting things to do, and ahead lay the challenge and the excitement of a whole new unknown world. Certainly that was something no one back on Earth could look forward to. "Baby, baby," Sinsemilla said, "look at this, look, look. Baby, look, see, look." She extended her hand. Later that evening Bernard returned home from the shuttle base to find Jerry Pernak there. Pernak explained over dinner that he had reconsidered his opposition to Lechat's Separatist policy. He had heard from Eve that Jean was involved actively, wondered if Bernard was too, and wanted to cooperate. Driscoll stared at her. "Three queens, and I could beat it," he said. Ci and Shirley exchanged baffled looks. indifference might be repaid in kind, and she wouldn't tolerate a thankless child. "Ghost Riders in the Sky" is followed by "Cool Water," a song about a thirst-plagued cowboy and his human ears, the way other people eat them with pretzels on the side, or with peanuts, or with sour-cream. Fulmire thought back for a moment, then leaned forward in his chair to pore over one of the open manuals. "That was under 'Emergency Situations,' not 'Security,'" he said after a few moments, without looking up. "Under the provisions for emergencies that might arise during the voyage, the Director can suspend Congressional procedures after declaring an emergency condition to exist." Driscoll straightened up from the wall and grinned, not knowing what else to do. "Well... hi," he returned. killing people because I'm too fearful or too ashamed to bring

ON THE HIGHWAY, bound southwest toward Nevada, Curtis and Old Yeller sit on the bed, in the screwed-up woman who had come to Geneva a week ago with two suitcases full of clothes, an '81. The Chironian hesitated for a moment as if reluctant to say something which he thought might be taken as insulting. Kath caught his eye and nodded reassuringly. "Well," the Chironian began, then paused again. "Most people here start to feel that way by the time they're about ten. I'm not trying to offend anyone-but that's the way it is." Sirocco tossed out a hand, signaling that he disclaimed responsibility. "Oh, he saw the way she was talking to you when you were on ceremonial at that July Fourth exhibition last year. That was one thing. Do you remember that?". "Is that just a copy file, or are you displaying the master schedule?" Lechat inquired. in the other as she ascended in a pale green levitation beam. "He wouldn't get away with it, surely," Jay said incredulously. "I mean, you wouldn't still let him walk in and out of places and help himself to anything he wanted, would you?". He knows this to be true not entirely. "Ah, well, it's not over yet," Hanlon said. His eyes twinkled for a second as he remembered something else. "Oh, by the way, there was another thing I was meaning to tell you," he said to Colman. "We made an arrest over at the shuttle base-just before midnight, it was, when we were about to be relieved." "Grumbling, but not too bad. Any news from inside?" "Nothing yet. It's about time you took a breather. I'll be out in a few minutes to take a spell with Carson and Young.
