Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay..Her brother came in. "Come on out," he said to her as soon as he saw the curer dozing on the settle. She stepped outside with him..Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the."They know the Rule doesn't allow them."..as you know, live with lords, and have what they wish.".Then for a while he held still, body and mind, beginning to understand for the first time where his power lay..But after ten days or so, Licky said, "Master Gelluk's coming here. If there's no ore for him, he'll likely find another dowser."."I was new at the business of being Archmage then. And younger than the man we fought, and maybe not afraid enough of him. It was all the two of us could do to hold our own against him, there in the silence, in the cell in the tower. Nobody else knew what was going on. We fought. A long time we fought. And then it was over. He broke. Like a stick breaking. He was broken. But he fled away. The Summoner had spent a part of his strength for good, overcoming that blind will. And I didn't have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And not a shred of power left in me to follow him with. So he got away from Roke. Clean gone..After Golden had gone out, she found her son in the counting-room going through ledgers. She looked at the pages. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds..city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey.light,"" she said..The traveler stood at the crossway and whistled back at the reeds.. After a while she looked up at him. "No," she said in a soft, quiet voice,..him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had..The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from..In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost..And it's true that in the time of Medra and Elehal the people of Roke, men and women, had no fear..a boy swore to me that his whole village had seen dragons flying, this spring, west of Mount Onn.."I was single. They picked unmarried ones. That is -- volunteers.".."Off you go, then," she said, "and leave us to settle this matter of the Rule." Every night he lay alone in this cabin he.."Maybe you can find that island," said Ayo.."I won't sail my boat across Havnor, dear love. I plan to go around it. By water." He could always make her laugh; he was the only one who could. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then

she might take a couple of students to learn with her the ways through the forest and the patterns of the leaves; for she was the Patterner..After a long time the door opened and several men came in. The book convinced him that all of them were only shadows or hints of a greater

mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking.
